

SSF COOPERATOR: MONTANOSA WEAVERS ASSOCIATION (MWA)  
Location: Besao, Mountain Province

**Time to give back.**

Last year, Montanosa Weavers Association (MWA), a provincial wide weavers organization, was one among the many organizations in the country to receive a grant from DTI's Shared Service Facilities (SSF) Project in the form of sewing machines and looms. The equipment did not only boost our production process but also relieved us from spending additional capital to buy additional equipment.

Now, in our own little way to give back to our community, cloth masks were donated to the Sagada Local Government Unit.

Our cloth masks are made of 3 layers of cloth (cotton cloth, fusible interfacing as filter, woven fabric) and spandex cloth.
